

## *CMA University Scholarships*

Every year, the Foundation of the Quebec CMA Order invests thousands of dollars in a vital asset: the academic excellence of future CMAs. Scholarships worth \$1,000 each are awarded to worthy students intending to become CMAs.

### **Objective**

Recognize academic excellence in candidates who have successfully completed an undergraduate accounting or management program.

### **Eligibility criteria**

- » Canadian citizen or permanent resident;
- » graduate of an undergraduate program on the list of university degrees leading to the CMA accreditation process;
- » an academic average of 75% or higher;
- » registration with the Quebec CMA Order as a registered candidate before March 15, 2010;
- » duly registered in the CMA Strategic Leadership Program (SLP) by September 1, 2010 or in a graduate program recognized by the Order as equivalent to the first six modules of the SLP (five eligible programs).

### **Application**

No application is required. Once the applicant submits his or her final transcript to the Order and that he or she meets the other eligibility criteria, the Foundation automatically confirms that a scholarship has been awarded.

### **Scholarship award date**

The date on which scholarships are awarded differs from one university to another.
